

Ikelite Digital Housing

supplemental instructions

for

#6281.57 Nikon S570 ULTRAccompact Digital Housing

Camera Setup

- Set to Auto Mode (camera icon).
- Set ISO to 80.
- Set Macro mode to "ON".
- Set flash to forced "ON" (lightning bolt).
- Set metering to "Center-Weighted".
- Set AF area mode to "Center".
- Set White Balance to "Auto".

NOTE: If over-exposure occurs, enable Macro Mode setting. If over-exposure continues, back away from the subject and then zoom in as necessary. Camera will focus far away even if Macro Mode is on.

Ikelite W-20 Wide-Angle Conversion Lens #6420

An external wide angle conversion lens increases angle of coverage, so you can get much closer to your subject while still fitting everything in the frame. Add an Ikelite W-20 or other 67mm wide-angle conversion lens to improve your angle of coverage in any shooting situation.

Moderate vignetting will occur at widest angle camera lens setting. Zoom in slightly to eliminate, or crop the image in post-processing. Also, slight edge softness around the edges in some situations is normal.

NOTE: Bayonet mount lenses cannot be used with this housing.

AF35 Strobe Package #4035

The AutoFlash AF35 kit is a great compliment, and an effortless, affordable way to add a flash to your new Ikelite point-and-shoot camera system. Everything you need to get started is in the box. Just attach it to the bottom of your housing and start taking pictures!

AF35 AutoFlash kit includes:

- AF35 strobe
- Flex arm
- AutoFlash sensor
- Handle with rubber grip
- Tray (single or dual)
- Mounting hardware

Go to www.ikelite.com for complete strobe and accessory info.
